

Script of Community Used Clothes Recycling Bank Scheme – Used Clothes up-cycling

Are there any “old-fashioned” clothes in your closet?
Let’s try them on!

I do! I have an overcoat that I really like

I own a denim jacket but I seldom wear it now

I really won’t wear oversized clothes anymore and the ones for hip hop dancing

There’s this dress that I feel for that brings back memories. But I have only worn it once.

Back then when I was so fond of some idols. I’d buy the same clothes as them
When I looked in the mirror I thought we did look alike.

Do you know that used clothing can be reinvented into something new?

Wallpaper maybe?

If it’s too worn out, we will use it as a rug.

Carpeting might work.

The transformation of used clothing is beyond our imagination. More and more charities embrace the concept of “up-cycling” and reinvent new products out of used clothes. Recycling, Reuse and Up-cycling of a piece of used clothes all starts with your kind donation.

Guess what, this shirt was once a dress. Whereas this bag used to be a pair of jeans.
