

Chapter 18: Postal Services

General information

Postal services in Hong Kong are provided by Hongkong Post, which offers reliable and efficient services at reasonable prices.

To get your mail delivered promptly, affix the stamp in the top right-hand corner of the envelope and write the address clearly. Otherwise, the delivery of the item may be subject to delay. You are also reminded to ensure sufficient postage has been paid for all mail items tendered for posting.

An online “Mailing Address Format Finder” available on Hongkong Post website and Hongkong Post Mobile App is provided to facilitate the general public to easily check the correct address format for local post. The tool also enables you to print the address on envelopes and address labels for posting or other purposes. To facilitate the return of undeliverable mail, please write the sender’s name and address in the top left-hand corner on the front of the envelope or on the back of the envelope. For further details, please visit https://www.hongkongpost.hk/en/about_us/tips/correct_address/index.html/.

All airmail letters should be affixed with a blue “By Air Mail” label. The labels are available free of charge at all post offices. Put the label on the top left-hand corner of the address side of the envelope or close to the address on parcels and packets. If you do not have an airmail label, write “BY AIR MAIL” on air mail items.

All parcels sent by post must be declared to Customs through Easy PreCustoms platform or special forms available at post offices. Detailed and truthful description (i.e. details, quantity and weight or volume, etc.) of mail contents must be provided on the customs declaration form. For more details on Easy PreCustoms platform, please visit <https://easy-precustoms.hongkongpost.hk/epc/>.
